[The Algonquin Shores Story](#)

A Century of Shoreside History

Algonquin Shores is more than just a getaway; it is a piece of Oxtongue Lake history that spans over a century.

The Pioneer Roots: The land you are standing on was originally settled by **Charles Nunn**, who purchased it directly from the Crown in 1907 for just \$1.00 an acre. Nunn was a pioneer in the truest sense—an avid fisherman and woodsman who helped build the foundations of the Oxtongue Village community.

In 1915, a man named James Rennie built a dovetailed log cabin on this shore—one of the last of its kind. From early weddings held on the property in the 1920s to its time as part of a local mill, this land has always been a place where people gathered to enjoy the rugged beauty of the Muskoka-Algonquin Highlands.

Our Founding Season: After over 100 years of history, **you are joining us for our founding season.** This is our very first year of operation as Algonquin Shores. Our mission is to preserve the rustic, "pioneer" charm that Charles Nunn first fell in love with, while ensuring you have all the modern comforts you need for a perfect escape.

Because this is our first year, you aren't just a guest—you are helping us write the next chapter of this incredible story. We invite you to explore, relax, and grow with us as we refine our retreat for generations to come.

Welcome to the legacy of the lake!
