Solar Hot Water System

?? Solar-Powered Showers in Paradise! ??

Welcome to the tropics — where the sunshine powers your hot showers and Mother Nature takes the lead! ??

Here in beautiful Puerto Rico, we're proud to use the **power of the sun** to heat your water — it's sustainable, eco-friendly, and part of the island rhythm! But just like dancing salsa, it's all about the timing. ??

? How It Works:

Your water is heated by a **solar panel system** on the roof. On **bright, sunny days**, it cranks out plenty of piping hot water! ???

But on **cloudy or rainy days**, that water might be a bit... let's say "refreshingly tropical." ?????

? Pro Tips for Solar Showers:

? Sunny Day = Spa Vibes

Expect a great flow of hot water — perfect for those long, steamy showers. ??

?? Overcast = Island Cool-Down

Water may be warm-ish or even cool, depending on how much sunshine we got that day. Think of it as a refreshing rainforest rinse! ??

? Best Time to Shower?

Late morning to early evening is your golden window — after the sun's had time to work its magic. ???

? Why It Matters:

Using solar means we're doing our part to **protect Puerto Rico's beautiful environment** and cut down on power usage. ?? It's all part of that laid-back island lifestyle!

So relax, go with the flow, and let the sun (mostly) do the heating!

If you're ever caught on a cloudy day — just channel your inner beach bum and embrace the cool vibes. ???????

Need anything or have questions? Just message us — we're here to keep things **sunny-side up!** ??

Toilets-Important Information

?? Island Edition - Delicate Plumbing Warning

?? Island Toilets Are Fragile Friends! ??

You're on a tropical getaway, not a plumbing repair mission! ?
Puerto Rico's plumbing isn't built for anything fancy — so please:

- ? **ONLY flush toilet paper & your natural contributions!** ??
- ? **No wipes, paper towels, hygiene products, or mystery items.** ????????

Why? Because island plumbing is like a coconut — tough on the outside, but sensitive inside. ? One wrong flush and things could go *very* wrong.

??? Clogs can cause backups, damage, and even expensive repairs — not exactly vacation vibes.

Let's keep things flowing and the island glowing! ??
Thanks for helping us protect paradise one flush at a time! ??

Service Animals

? Service Animals Are Welcome!

We're happy to accommodate legitimate service animals that assist with a disability. ?
To ensure a safe and comfortable stay for all guests (and critters), here's our policy — made easy to follow:

? What's Allowed:

- Service animals that are well-behaved, housebroken, and under your control at all times
- Animals that meet **licensing and vaccination** requirements in your home state/city
- Service animals that are **leashed**, harnessed, or under **reliable verbal command**
- Guests who notify us **in advance** that they're bringing a service animal ?

? What's Not Allowed:

- Animals with a history of aggression toward people or other pets
- Indoor piddle pads — all service animals must be fully housebroken
- Leaving your service animal unattended
- Barking, biting, chewing, or destructive behavior (yep, we'll have to ask you both to leave if this happens)
- Climbing on furniture or counters unless medically necessary

? Clean-Up Rules:

Please bring your own "poo bags" and dispose of waste in the **large exterior trash bins**.
Sanitation matters — so please keep things clean and respectful.

? Heads up:

It's against the law to misrepresent a pet as a service animal.
Fraudulent claims = fines and legal trouble ?
Let's all keep it honest and respectful!

Thanks for understanding and helping us keep our space safe, relaxing, and 5-star ready for everyone! ?

Noise

?? Trash Talk (the good kind!)

Before you head out, please toss out the trash from the indoor bins. ??
