? Here's How to Find Us (with a little flair!):

When you arrive at **1005 Cordone Ave**, you're almost there — but here's the fun part:

?? **The entrance is actually around the corner on Bresson Street** (yes, the *secret side door!* ?)

? Look for a **large gate with a cheerful “WELCOME” sign** — you can't miss it! That's your VIP entrance! ?

? Just walk right in through the gate and find the Tahoe Room — your relaxing retreat awaits!

Keys

? No Keys, No Worries!

Getting in is easy — you don't have to fumble with keys or worry about losing them. Your getaway starts with just **4 digits!**

? How it works:

?? We use a **digital keypad** for entry.

?? Your code is the **last 4 digits of the phone number** you used when booking.

?? Just press those **4 numbers only** — and you're in!

?? Heads up!

If you press **any extra buttons** after your code, the lock will automatically re-lock.
(Think of it like a secret clubhouse door ?)

? Need help?

No stress! If you have any issues with the lock, just send us a message and we'll help you ASAP.

Welcome — and enjoy your stay! ??

Important Tankless Hot Water System Instructions

? Tankless Hot Water System

Your hot water works by **flow rate** — not temperature dials. Think of it like this:

- ? **More Flow = Quicker Warm Up, Less Heat**
- ? **Less Flow = Slower Warm Up, But HOTTER Water**
- ? **Too Little Flow = Cold Surprise ???**

? Pro Tips for Tub, Shower & Sink Bliss

? **Turn on the HOT valve fully at first** — this gets the water moving and warms it up faster!
? **Give it a moment** — the water has to travel from the magic heater box to your tub/shower/sink. It's worth the wait.

- ? **Want it hotter?** Slowly back down the hot valve to reduce the flow a bit. Less flow = more heat!
? **Don't go too far!** Back it off *too much*, and the heater gets confused... cue the cold water shock! ?

???? Think of It Like Wizardry!

You're not just turning knobs — you're casting spells! ?
? Full-on = cool and fast
? Medium flow = steamy goodness
? Too low = ice bucket challenge

? Now you're a Hot Water Hero! ?

Enjoy endless luxurious soaks, steamy showers, and relaxing hand-washing in total comfort. ??

Need help? Just holler — we're here to keep your hot water dreams alive! ?

Service Animals

? Service Animals Are Welcome!

We're happy to accommodate legitimate service animals that assist with a disability. ?
To ensure a safe and comfortable stay for all guests (and critters), here's our policy — made easy to follow:

? What's Allowed:

- Service animals that are well-behaved, housebroken, and under your control at all times
- Animals that meet **licensing and vaccination** requirements in your home state/city
- Service animals that are **leashed**, harnessed, or under **reliable verbal command**
- Guests who notify us **in advance** that they're bringing a service animal ?

? What's Not Allowed:

- Animals with a history of aggression toward people or other pets
- Indoor piddle pads — all service animals must be fully housebroken
- Leaving your service animal unattended
- Barking, biting, chewing, or destructive behavior (yep, we'll have to ask you both to leave if this happens)
- Climbing on furniture or counters unless medically necessary

? Clean-Up Rules:

Please bring your own "poo bags" and dispose of waste in the **large exterior trash bins**.
Sanitation matters — so please keep things clean and respectful.

? Heads up:

It's against the law to misrepresent a pet as a service animal.
Fraudulent claims = fines and legal trouble ?
Let's all keep it honest and respectful!

Thanks for understanding and helping us keep our space safe, relaxing, and 5-star ready for everyone! ?

Noise

Noise & Quiet Hours

? Shhh... It's Quiet Time! ??

We love good vibes and great convos — but after **10 PM**, it's time to dial it down so everyone (including the neighbors!) can catch some Zzz's ?

- ? Keep music low after 10 PM
- ?? If you're chatting outside, use your "indoor voices"
- ? Getting a little lively? Just take the fun inside!

Let's keep the peace and the 5-star reviews rolling in ? Thanks for being awesome!

Rubbish & Recycle

?? Trash Talk (the good kind!)

Before you head out, please toss out the trash from the indoor bins. ??
Our cleaning crew may not arrive right away, and this little step keeps things smelling fresh and pest-free for the next lucky guest (and saves us from surprise science experiments ??).

Thanks a bunch — you rock! ??

Door Code Not Working

[Door Code Not Working](#)

Door Code Not Working

?? Your Digital Door Code: Easy, Breezy, and Just for You!

Welcome to the future — no keys, no hassle, just a sweet little code to get you in! ??

Here's what you need to know:

? **Your 4-digit access code** is set up to work **only during your booking time**.

? That means:

- ? It will work starting **at 3:00 PM** on your check-in day (unless you scored early check-in!)
- ? It **won't work before 3:00 PM**
- ? It **stops working at check-out time**

? **Important Pro Tips:**

1. **Just enter the 4 digits — that's it!** No need to press "Enter" or "OK" — the door will automatically unlock like magic ?????
2. **Use the phone number** you originally booked with — that's how your code is linked. (If you changed numbers recently, that might be the hiccup!)
3. ?? **Tech is amazing...** until it isn't ?
If your code isn't working, don't stress! Just **send us a message on the booking platform** and we'll get it reset in a flash ?

We're always here to help get you through the door and into vacation mode! ????

Hot Water

[Hot Water](#)

Hot Water

? Using the Tankless Water Heater

Our home uses a **tankless water heater**, which means it heats water **as it flows**—there's no hot water tank. The **speed of the water flow** affects how hot it gets.

Here's how to get the best temperature:

1. Turn on the hot water slowly.

- If you **turn the handle all the way up**, the water flows **very fast**, so it doesn't have much time to heat up.
? The water will be **warm but not very hot**.

2. To make it hotter, turn the handle back a little.

- Slowing the water gives the heater more time to warm it up.
? The water will get **hotter** as you turn it back slightly.

3. Don't turn it back too far.

- If you close the handle too much, it will **shut off the hot water** completely and you'll get **only cold water**.

? **Tip:** Adjust slowly until you find the "sweet spot" where the water is hot and steady.

Hot Tub & Sauna

[Hot Tub & Sauna](#)

Hot Tub & Sauna

? PRIVATE COURTYARD

? The private courtyard is a shared space, so please be courteous to other guests.

? HOT TUB & SAUNA USAGE

? Check the schedule and **sign up for a time slot** to use the hot tub or sauna.

? Time slots are **limited to 1 hour** to ensure all guests can enjoy the facilities. If no other guests are scheduled during your stay, you're welcome to use it at any unscheduled time.

? RULES

? No eating or drinking in the hot tub or sauna to maintain the space for all guests.

? Please shower before using.

FAR INFARED SAUNA

Warnings & Precautions

- If you have health problems consult a physician prior to using the sauna.
- Using a sauna after taking alcohol, drugs or medications can lead to hyperthermia.
- Limit yourself to a maximum of 15 minutes for beginners and never longer than one hour.
- Leave the sauna immediately if you experience any nausea, dizziness, hot flashes, cold chills, headaches or other discomfort. Drink plenty of fluids before and after leaving the sauna.
- Do not eat or drink in the sauna.

Operations

Allow at least 15 minutes for the Sauna to preheat before entering. After 15 minutes, the temperature should reach about 105 degrees. Most sauna users enjoy and start at this temperature. Then, the temperature will continually rise to the set temperature. If the sauna temperature is too high, decrease the temperature setting or open the door to allow fresh air into it.

Enjoy your sauna – relax, renew & refresh!

? USING THE HOT TUB & SAUNA

?? At your scheduled time, press the start button in the sauna, then turn off the light button to switch off the overhead white reading lights. This will start preheating the sauna.

? Close the sauna door and move to the hot tub.

? To remove the cover, flip it back, and use the bar to assist with lifting it off.

?? The hot tub temperature will be between 100-104°F.

? If the jets aren't on, press the far right button to activate them. Use the left button to turn on the lights.

? Enjoy the hot tub for 15 minutes before moving to the sauna.

?? The sauna will be about 105°F when you start, and it'll rise to around 147°F after 15 minutes.

? Tip: Beginners should limit sauna use to 15 minutes.

? There's a Bluetooth speaker in the sauna, so feel free to connect your phone for music while relaxing!

? After using the sauna, it's best to shower to remove sweat and chlorine from the hot tub.

? The hot tub uses bromine, not chlorine, to sanitize and keep it clean. If you're sensitive to chlorine, please avoid the hot tub.

? Hydrate well afterward, and you'll enjoy a restful, relaxing sleep!
