## **Important Tankless Hot Water System Instructions**

### **? Tankless Hot Water System**

Your hot water works by **flow rate** — not temperature dials. Think of it like this:

? **More Flow = Quicker Warm Up, Less Heat**

? **Less Flow = Slower Warm Up, But HOTTER Water**

? **Too Little Flow = Cold Surprise ???**

---

### **? Pro Tips for Tub, Shower & Sink Bliss**

? **Turn on the HOT valve fully at first** — this gets the water moving and warms it up faster!

? **Give it a moment** — the water has to travel from the magic heater box to your tub/shower/sink. It's worth the wait.

? **Want it hotter?** Slowly back down the hot valve to reduce the flow a bit. Less flow = more heat!

? **Don't go too far!** Back it off *too much*, and the heater gets confused... cue the cold water shock! ?

---

### **???? Think of It Like Wizardry!**

You're not just turning knobs — you're casting spells! ?

? Full-on = cool and fast

? Medium flow = steamy goodness

? Too low = ice bucket challenge

---

#### **? Now you're a Hot Water Hero! ?**

Enjoy endless luxurious soaks, steamy showers, and relaxing hand-washing in total comfort. ??

Need help? Just holler — we're here to keep your hot water dreams alive! ?

### Service Animals

## ? Service Animals Are Welcome!

We're happy to accommodate legitimate service animals that assist with a disability. ?  
To ensure a safe and comfortable stay for all guests (and critters), here's our policy — made easy to follow:

### ? What's Allowed:

- Service animals that are well-behaved, housebroken, and under your control at all times
- Animals that meet **licensing and vaccination** requirements in your home state/city
- Service animals that are **leashed**, harnessed, or under **reliable verbal command**
- Guests who notify us **in advance** that they're bringing a service animal ?

### ? What's Not Allowed:

- Animals with a history of aggression toward people or other pets
- Indoor piddle pads — all service animals must be fully housebroken
- Leaving your service animal unattended
- Barking, biting, chewing, or destructive behavior (yep, we'll have to ask you both to leave if this happens)
- Climbing on furniture or counters unless medically necessary

### ? Clean-Up Rules:

Please bring your own "poo bags" and dispose of waste in the **large exterior trash bins**.  
Sanitation matters — so please keep things clean and respectful.

### ? Heads up:

It's against the law to misrepresent a pet as a service animal.  
Fraudulent claims = fines and legal trouble ?  
Let's all keep it honest and respectful!

---

Thanks for understanding and helping us keep our space safe, relaxing, and 5-star ready for everyone! ?

Let's keep the peace and the 5-star reviews rolling in ? Thanks for being awesome!

## **Rubbish & Recycle**

### **?? Trash Talk (the good kind!)**

Before you head out, please toss out the trash from the indoor bins. ??

## Hot Water

### [Hot Water](#)

#### **Hot Water**

#### **? Using the Tankless Water Heater**

Our home uses a **tankless water heater**, which means it heats water **as it flows**—there's no hot water tank. The **speed of the water flow** affects how hot it gets.

Here's how to get the best temperature:

**1. Turn on the hot water slowly.**

- If you **turn the handle all the way up**, the water flows **very fast**, so it doesn't have much time to heat up.  
? The water will be **warm but not very hot**.

**2. To make it hotter, turn the handle back a little.**

- Slowing the water gives the heater more time to warm it up.  
? The water will get **hotter** as you turn it back slightly.

**3. Don't turn it back too far.**

- If you close the handle too much, it will **shut off the hot water** completely and you'll get **only cold water**.

? **Tip:** Adjust slowly until you find the "sweet spot" where the water is hot and steady.
